PROGUARD CLADDING PROTECTION BOARD

Product Code	Pricing Unit	Colour	Dimensions	Thickness	Pack Quantity	Pallet Quantity
PBB1(EC)	Each	Black	3m x 1.05m	2.1mm	25	500

Product Description:

Proguard Cladding Protection Board is manufactured from strong corrugated polypropylene to provide long lasting protection for cladding sheet protection. Lightweight and extremely strong, the plastic sheets are tear, abrasion, puncture, and impact-resistant, offering strong surface protection for roofing and cladding sheets during transport and storage

Proguard Protection Board is similar to twinwall plastic sheeting and correx board and is ideal for protecting cladding sheets in storage.

Benefits:

- **Large size**
- **Provides efficient protection from knocks, scratches, and spills.**
- **Lightweight and flexible.**
- **Quick and easy to cut, crease and curved.**
- **Durable and reusable.**
- **100% waterproof.**
- **Personalised logo and branding printing available.**
- **Proguard Protection Board is available in translucent, black, flame retardant and a variety of sizes and formats.**
- **LPS1207 accredited option available.**
- **Resistant to chemicals.**
- **Made from over 90% recycled polypropylene**
- **100% Recyclable.**

Limitations:

- **Non-fire retardant. Use our Flame retardant Proguard Protection Board when this is a requirement.**

Application:

Ensure material which Proguard Protection Board is to be applied to is free from dirt. Lay a sheet of Proguard Protection Board on top of the cladding sheets. Use existing banding operations to hold the stack of sheets together as normal. Alternatively, Proguard low tack tape can be used to attach the sheet without leaving residue.

Performance Data:

Density	2.1mm (250gsm)
Rib Distance	3.2 – 3.5mm
Basic Component	Polypropylene (95%) Masterbatch (5%)
Melting Point	110/85°C
Solubility (in water)	Insoluble
Odour	Odourless
