

## SCAFFOLD BAG

Product Code	Pricing Unit	Colour	Size	Pack Quantity	Pallet Quantity
BHB1	EACH	White	30cm (dia.) x 45cm (h)	10	500

### Product Description:

These handy woven polypropylene bags are ideal for collection of site waste, equipment storage and many other site uses. They are fitted with 2 carry handles. Scaffolders bags are often used by scaffolding companies to transport fittings in site. Scaffolders bags are rated to carry 40kg, have two handles and a round base. Although often used by scaffolding companies, scaffolders bags can be used for carrying tools, building materials and general waste - a cheaper and easier to store alternative to a builder's bucket/flexi tub.

Size: 30cm diameter x 45cm high

Colour: White

### Benefits:

- Cost Effective
- Suitable for heavy duty rubbish or storage of tools
- Alternative to a builder's bucket/flexi tub
- Made from woven polypropylene
- Reusable & recyclable

### Application:

Use the scaffold bag to transport tools & fixings during scaffolding and construction work.

### Performance Data:

Safe working load	40kg
Basic Component	Polypropylene
