

PROGUARD FOAM SILL PROTECTOR

Product Code	Pricing Unit	Colour	Dimensions	Pack Quantity	Pallet Quantity
PEFS1	EACH	Blue	2m x 75MM	60	600

Proguard Foam Sill Protectors are the perfect protection for UPVC sills when construction or refurbishment work is going on. They are easy and quick to apply and simply clip into place around the profile to protect against all sorts of damage. These sill protectors are reusable and can be moved between sites to reduce costs and promote sustainability.

Benefits:

- Effective protection of sills
- Easy to cut to size
- Quick and easy to install.
- Impact resistant
- Lightweight
- Flexible

Limitations:

- Proguard Foam Sill Protectors are not fire-retardant.

Application:

These window sill protectors feature a 'clip' at the bottom of the product that will naturally attach the foam protection to the window sill when wrapped around it.

Performance Data:

Density	33kg/m ³
Tensile Strength	0.5N/mm ²
Elongation at Rupture	140%
Water Absorption	
24hr	1.35
28 days	< 3
Temperature Resistance	-30/+70
