

### FLAME RETARDANT DOOR JAMB PROTECTION

Product Code	Pricing Unit	Colour	Dimensions	Thickness	Pack Quantity	Pallet Quantity
PEFOF1	EACH	Red	114mm x 2m	13mm	15	120

#### Product Description:

Proguard flame retardant door jamb protectors are manufactured from a hard-wearing 13mm thick foam, and absorb impact (unlike rigid alternatives such as plastic and card)

The self-gripping o-profile tubes are pre-slit to fit door frames up to 265mm without any need for taping into place. This product can be left in place for the duration of the construction or refurbishment project.

Proguard door jamb protectors are extremely hard wearing and can be reused numerous times making it a cost-effective and sustainable temporary door protection solution. Door frame protectors are perfect for use when removing furniture during house removals.

Proguard door jamb protectors are fire-retardant.

#### Benefits:

- Fits any door jamb up to 265mm wide
- Lightweight and versatile
- Simple to fit and remove
- Self-gripping – no fixing required
- Re-usable
- FR (NON-CERT)
- Can be cut to size with a knife
- Also suitable for protection of newel posts and stone sills

#### Limitations:

- Doors cannot be operational when this product is in use.

#### Application:

Pull the o-profile tube open at the top and clip around the top of the door jamb. Push the rest of the tube into place and cut to size if necessary.

#### Performance Data:

Density	33kg/m <sup>3</sup>
Tensile Strength	0.5N/mm <sup>2</sup>
Elongation at Rupture	140%
Fire resistance	NON-CERT
Water Absorption	
24hr	1.35
28 days	< 3
